EDUCATION

Charotar University of Science & Technology (CHARUSAT)

Nadiad, Gujarat

Bachelor of Technology in Information Technology

2023 – 2027

- Relevant Coursework: Data Structures, Algorithms, Database Management, Web Technologies, Object-Oriented Programming, Machine Learning

TECHNICAL SKILLS

Languages: JavaScript, HTML, CSS, Python, C++, SQL

Frameworks & Libraries: React, Vite, Node.js, Express.js, Tailwind CSS

Databases & Backend: PostgreSQL, Supabase (Authentication, Storage, Database, Row-Level Security)

Tools & Technologies: Git, Figma, Canva, VS Code, REST APIs, Vercel

Design Skills: UI/UX Design, Figma Prototyping, Modern Design Systems, UI Animations, Responsive Layouts

Soft Skills: Technical Leadership, Project Management, Technical Communication, Content Writing

EXPERIENCE

Web Development Intern

May 2024 – June 2024

CodeClause

Remote

- Developed responsive web applications using HTML, CSS, JavaScript, React, Tailwind CSS, and Supabase, with a strong focus on clean code, modern UI design, and optimal user experience.
- Implemented frontend features and interactive UI components, improving website functionality and user engagement
- Debugged and optimized existing codebases, reducing page load times and enhancing cross-browser compatibility
- Collaborated with team members using Git for version control and participated in code reviews to maintain quality standards

PROJECTS

ProGrade - Rubrics Evaluation System | *Node.js, Express, Supabase, PostgreSQL*

2025

- Architected secure evaluation platform with Supabase authentication and row-level security policies for role-based access control
- Designed RESTful API architecture for rubric management, submission handling, and automated grading workflows
- Deployed production-ready application on Vercel with optimized performance and automated CI/CD pipeline

MoneyLog - Expense Tracking Application | *React, Node.js, PostgreSQL, Supabase*

2025

- Built intuitive expense-tracking application to simplify financial management with automated transaction categorization and spending insights
- Implemented data visualization features using charts and graphs to help users analyze financial habits and identify spending patterns
- Designed secure backend with Supabase authentication and database management for real-time expense tracking and multi-device synchronization

BRIEF - AI-Powered Resume Builder | *React, Vite, Tailwind CSS, AI Integration*

2025

- Developed full-stack resume builder with AI-assisted content generation, enabling users to create professional resumes with intelligent suggestions
- Implemented PDF generation functionality from web application, allowing seamless export of customized resume templates
- Built responsive UI with Tailwind CSS featuring modern design systems, hero sections, and grid-based layouts

Anonymous File Sharing Platform | *React, Node.js, Supabase Storage, Ngrok*

2025

- Built secure file-sharing system with file upload validation, temporary link generation, and anonymous access controls
- Integrated Supabase Storage for scalable file management and implemented automated Ngrok link generation for local network sharing

Technical Project Leadership & Full-Stack Development

2024 – Present

- * Steered end-to-end development of 6+ full-stack web applications from concept and UI/UX design to backend, deployment, and maintenance as showcased on personal portfolio site
- * Finalist at Odoo x MSU Hackathon, competing among top teams with innovative technical solutions and problem-solving approach
- * Architected modern web applications using React, Tailwind CSS, Supabase (auth, storage, database), and Node/Express, delivering scalable and maintainable codebases
- * Managed project roadmaps, feature planning, and coordinated team collaboration and code reviews to ensure timely delivery and high code quality
- * Mentored junior developers and peers in React, Supabase, frontend/backend integration, and modern design practices, elevating overall team capability and consistency
- * Integrated advanced functionalities like secure file sharing with authentication and expiry, dynamic resume-builder PDF generation, and AI-backed project verification, enhancing user experience and reliability
