EDUCATION

Charotar University of Science & Technology (CHARUSAT)

Nadiad, Gujarat

Bachelor of Technology in Information Technology (CGPA: 9.21)

2023 – 2027

- Relevant Coursework: Data Structures, Algorithms, Database Management, Web Technologies, Object-Oriented Programming, Machine Learning, Software Engineering, Cloud Computing

TECHNICAL SKILLS

Languages: JavaScript, HTML, CSS, Python, C++, SQL

Frameworks & Libraries: React, Vite, Node.js, Express.js, Tailwind CSS

Databases & Backend: PostgreSQL, Supabase (Authentication, Storage, Database)

Tools & Technologies: Git, Figma, Canva, VS Code, REST APIs, Vercel

Design Skills: UI/UX Design, Figma Prototyping, Modern Design Systems, UI Animations, Responsive Layouts

Soft Skills: Technical Leadership, Project Management, Technical Communication, Content Writing

EXPERIENCE

Web Development Intern

May 2025 – June 2025

CodeClause

Remote

- Developed responsive web applications using HTML, CSS, JavaScript, React, Tailwind CSS, and Supabase, with a strong focus on clean code, modern UI design, and optimal user experience.
- Implemented frontend features and interactive UI components, improving website functionality and user engagement
- Debugged and optimized existing codebases, reducing page load times and enhancing cross-browser compatibility
- Collaborated with team members using Git for version control and participated in code reviews to maintain quality standards

PROJECTS

ProGrade – Rubrics Evaluation System | *Node.js, Express, SQL*

2025

- Developed ProGrade, a rubrics-based system that helps faculty evaluate student projects in a structured and transparent way
- Built the platform using React, Tailwind CSS, Node.js, Express, and MySQL to manage rubrics, submissions, and evaluations
- Designed a simple interface for creating rubrics and tracking results, and deployed the app using Vercel (frontend) and Railway (backend + database)

MoneyLog – Expense Tracking Application | *React, Node.js, PostgreSQL, Supabase*

2024

- Built intuitive expense-tracking application with automated transaction categorization and real-time spending insights
- Implemented data visualization features using charts and graphs to help users analyze financial habits and identify spending patterns
- Designed secure backend with Supabase authentication and database management for multi-device synchronization and also designed ui ux of the whole application

DXMUSIC – Personal Music Portfolio Platform | *React, Node.js, PostgreSQL*

2025

- Built a full-stack music portfolio to showcase original songs and visuals, featuring a secure admin panel with protected routes for track management, uploads, and analytics
- Implemented a public-facing listener review system and smooth modern UI, merging artistic identity with production-grade web development in one cohesive platform and deployed the platform using Vercel (frontend) and Railway (backend + database) for reliable cloud hosting

AI-Powered Privacy Browser | *Electron, React, Python, Flask, scikit-learn, SQLite*

JAN 2026 – Present

- Building a Chromium-based desktop browser via Electron with an ML-powered ad-blocking engine using scikit-learn trained on EasyList rules to block ads, trackers, and malicious content in real time

- Led the design and development of the core user interface and feature set, including Reading Mode and Focus Mode with scheduled site blocking, productivity tracking, and session timers for a distraction-free experience
- Architected fully local stack – Python/Flask backend for ML inference and SQLite for on-device storage, with zero cloud sync or external data collection

LEADERSHIP & ACHIEVEMENTS

University Level Central Student Council (ULSC) – IT Department Representative 2025 – 2026

- * Elected as department representative to CHARUSAT's University Level Central Student Council, serving as the primary bridge between the IT department and university administration
- * Represented the IT department at university-level events and various committees.
- * Coordinated and contributed to organizing university-level cultural, technical, and administrative events, collaborating with representatives across all departments

Technical Project Leadership & Full-Stack Development 2024 – Present

- * Steered end-to-end development of many full-stack web applications from concept and UI/UX design to backend, deployment, and maintenance as showcased on personal portfolio site
- * Finalist at Odoo x MSU Hackathon and Odoo X SPIT hackathon, competing among top teams with innovative technical solutions and problem-solving approach
- * Managed project roadmaps, feature planning, and coordinated team collaboration and code reviews to ensure timely delivery.
